

V35 - Car Charger Autogrip

The car charger opens and closes via an infrared sensor which automatically detects the mobile phone.

New system to fix the charger to the car

It offers a rapid 10W charger to ensure adequate charge in the event of simultaneous use of multiple functions (calls, Internet... etc)

The 3-in-1 provided cable allows to recharge devices without charge induction function.

The charger comes in a soft-touch rubber and metal finish and offers a lighting logo.

Autonomous motor to release the phone even when the car is switched off.

Everything is included : customisation, 3-in-1 charging cable and gift box.
