

W25 - UV-C Charging Box

The UV-C box has a antibacterial rubber finish and a large surface for a lighting logo with 10W wireless charging.

The charging base is Qi compatible.

The UV-C technology inside the box neutralizes 99% of all present bacteria and microbiological contaminants within 3 minutes. It can be used to sanitize keys, smartphones, earbuds, cards or any small items.

The box is equipped with a protection system against UV-radiation : when the box is opened during the sterilisation process, the UV lights turn off to avoid any contact with skin or eyes.

The cover of the box is an integrated 10W wireless charger to recharge any of your induction devices.

Everything is included : customisation, antibacterial treatment, rPET charging cable and gift box out of recycled paper.
