UV-C sterilization

Technical specifications

3 modes :

1. Mode ON - disinfection function only: disinfection mode is active. After 5 min the blue led indicator flashes confirming that your smartphone has been properly disinfected. You can then remove it from the base.

2. AUTO mode - disinfection and wireless charging function: disinfection mode is only active when your smartphone with wireless function is charging on the base. When your smartphone is sterilized, the LED indicator flashes 5 times indicating that sterilization is complete.

3. Mode OFF - induction charging function only: The sterilization function is deactivated. You can charge your smartphone on the induction base with or without the arm extended.

- Item dimension: 110 x 110 x 26 mm (folded) 110 x 110 x 125 (unfolded)
- Wireless output: 10W
- UV Power : 3.5W
- LED quantity: 7 units
- Sterilization time: 3 minuts
- Working Frequency: 110kHz-205kHz
- Qi compatibility
- Wireless distance: 3-8mm
- 3-year warranty (cable excl)
- Patent EUROPE EUIPO
- Customs code: 85044095

The product includes a micro USB charging cable (70 cm) made of recycled plastic (rPET).

Printing

Printing zones:

- lighting logo - 45 x 65 mm
- digital printing with embedded lighting logo - 100 x 85 mm
