C48 - 40W CarPlay Cable

Rubber & metal finish cable (length: 1m) with data transfer and double lighting logo. This cable is made from eco-friendly materials: 100% recycled ABS and rPET from recycled bottles.

This cable can be used with Apple CarPlay and Android Auto for car apps.

Thanks to its dual USB-A + USB-C output, the cable is 100% compatible with the latest computers on the market (USB-C).

The cable allows data transfer onto computers for any type of device (USB-C + Lightning + Micro USB).

The 2 illuminated logos can be different from each other (option).

LED color can also be orange, yellow, green or dynamic multicolour (option).

Everything is included: recto/verso customisation and recyclable TPU sleeve with recycled paper card.

5-in-1 cable	recycled ABS	Apple CarPlay	data transfer	printing in France	3-year warranty	customisable lighting logo	rPET	recycled packaging	print without ink	fast charge
