

NA4 - A4 EcoNotebook

Thanks to its water-resistant and tear-proof paper, the EcoNotebook is infinitely reusable! A4 notebook is made in Europe.

Use the erasable pen provided to take your notes. When you want to erase your pages, you have three options:

- Use your pen eraser to make corrections or erase small passages
- Use the provided cleaner spray to moisten your pages and wipe them quickly
- Or use a hair dryer to erase several pages at once!

You can choose your types of cover and personalization: pantone (soft-touch cover) or with laser marking (PU leather cover).

You can choose your cover and customization option:

- Soft-touch cover (CT or PM) with offset customization on 4 covers
- PU-leather cover with laser printing on front cover (or embossed printing as an option)

Everything is included: erasable pen, cleaning spray, customization, and reusable storage pouch made of recycled cotton.

Printing

Recommendations for pantone covers (CT and PM):

- To ensure optimal quality, be sure to vectorize all elements (logo, text, QR code) before sending. AI formats or editable PDF files on Illustrator are the most suitable.
- If certain elements cannot be vectorized, such as a photo for example, make sure to provide them to us in optimal quality (300 dpi).
- Perfect color match when printed digitally, please provide CMYK materials.
- When the cover contains a design on the edges, it is imperative to provide a bleed of 1.5 m on each side. For plain covers, 3mm bleed is ideal.

For PU leather covers, please provide us with vectorized logo.

Printing zones:

- Offset printing on cover (download the HD layout below) – 208 x 293 mm
- Laser printing on PU cover (open positioning) – 80 x 50 mm
