

L12 - Shield Backpack 10.000 MAh

Backpack made of rPET from 27 recycled bottles

Equipped with a 10,000 mAh fast-charging battery, the backpack also comes with a luminous rPET 3in1 charging cable.

The cable allows the battery to be charged directly from the USB and Type-C connector on the outside of the bag (without the need to remove the battery).

The bag has a padlock to secure the opening.

Designed with a rigid front, inside with padded compartments for laptop and tablet, it also features a trolley handle strap, a hidden back pocket "Smart Security".

The battery is removable for a security check.

Everything is included: personalization on the front plate, 10,000 mAh powerbank, 3-in-1 rPET cable with luminous logo on one side and non-woven pouch.

3-in-1 cable included
