

L13 - 100% Eco-designed Backpack

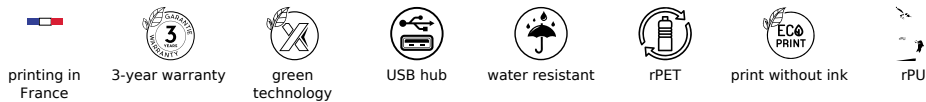

City backpack made from recycled PET (equivalent to 22 recycled bottles) in waterproof 1680D fabric.

The backpack has padded compartments for a laptop or tablet with a USB/Type C connector and a micro USB adaptor. By plugging in a powerbank (available as an option) in the pocket provided, your bag becomes a charging station.

The bag closes with a metal snap hook on the front and waterproof zips.

The structure and the padded bottom ensures that the contents of the bag are well protected.

Everything is included: branding on the front metal plate, non-woven storage pouch and 3-year guarantee.
