

C41 - 100W DIGICABLE

100W cable with LCD display, designed to combine performance, innovation, and design.

The logo appears through a dynamic full-color photo display. The LCD display, spread across three screens, also allows users to monitor charging power and its real-time graphical evolution.

The dual USB-A + USB-C input makes the cable fully compatible with the latest laptop models.

The cable also supports data transfer and is compatible with Apple CarPlay and Android Auto.

Customization is achieved using uploaded a digital image, offering full creative freedom.

Supplied in a recyclable TPU pouch with a recycled paper insert, ensuring a premium and responsible presentation.
