

A13 - PassportTag

This passport holder, designed and made in France, keeps your essential travel documents perfectly organized while ensuring their security thanks to the included SmartTag card.

Crafted from upcycled leather, it is built to withstand frequent handling, impacts, and travel conditions, while offering a premium look and feel. It features a dedicated slot for an ID card as well as a compartment specifically designed for the included SmartTag card.

The SmartTag card is compatible with both the Apple® Find My network and the Google® Find My Device network, allowing you to locate your passport holder in just a few seconds.

It connects to your smartphone via Bluetooth® and can be tracked directly through the native application:

- on iPhone: via the Find My app
- on Android: via the Google Find My Device app

Even when outside Bluetooth® range, your passport holder can still be located thanks to the crowd-sourced network of nearby Apple® or Android® devices.

The SmartTag card offers up to 6 months of battery life, powered by a 100 mAh wireless rechargeable battery.

The leather passport holder and the gift box are designed and manufactured in France. The tracker card is manufactured in China, in facilities specialized in advanced electronic production.

Complete turnkey solution

Laser engraving personalization on the passport holder and a recycled cardboard gift box, for a premium and responsible presentation.
