

A14 - BagTag

The BagTag is designed to easily identify and locate your luggage while traveling, making it a discreet and efficient travel companion.

Made from upcycled materials, it is engineered to withstand frequent handling, impacts, and transportation conditions. It features a dedicated space to display your name and contact details, ensuring quick and reliable identification of your personal belongings.

It is equipped with a card-format SmartTag, compatible with Apple® Find My and Google® Find My Device networks, allowing you to locate your personal items effortlessly.

The SmartTag connects to your smartphone via Bluetooth® and can be tracked directly through the native application:

- - On iPhone: via the Find My app
- - On Android: via the Google Find My Device app

Even outside Bluetooth® range, your SmartTag can still be located thanks to the nearby Apple or Android mesh networks.

It provides up to 6 months of battery life, powered by a 100 mAh rechargeable battery with wireless charging.

The leather luggage tag and the gift box are designed and manufactured in France.

The tracker card is manufactured in China, in factories specialized in advanced electronic technologies.

Everything is included: laser-engraving customization on the luggage tag and a recycled cardboard gift box.

Technical specifications
