

D30 - TravelPresso

Compact, portable and rechargeable espresso machine.

Compatible with standard Nespresso®-type capsules, it can be used with hot or cold water thanks to its integrated heating function. With cold water, the machine heats the water to 90°C in approximately 5 to 6 minutes before extracting the coffee.

Its rechargeable battery and USB-C charging make it easy to use on the go, while the transparent 150ml cup allows the coffee to be enjoyed immediately after extraction.

Compact, practical and premium, the TravelPresso is an ideal gift for coffee lovers, business travellers and outdoor enthusiasts.

Everything is included: laser engraving and a recycled cardboard gift box with magnetic closure.

3-year warranty
