

O20 - Wireless Charging Mouse

Rechargeable wireless mouse with lighting logo and rubber.

The mouse can be recharged with wireless technology or thanks to the included cable. When the battery is empty, the mouse can be used with the cable.

The logo is bright when the battery is charged and darkens when 20% of battery capacity remains. The mouse has an autonomy of 8 hours in constant use.

The autonomy varies according to the use and the computing conditions.

Everything is included : customisation, charging cable and recycled cardboard gift box.
