

L10 - Eco Business Backpack 10.000 MAh

Backpack made of rPET (from 27 recycled bottles) with water resistant 1680D fabric.

Equipped with a built-in 10,000 mAh fast charge battery and a 3-in-1 charging cable with lighting logo.

The inside battery is connected to two external connectors : USB and Android.

Includes an RFID pocket and a zipper locking system to guarantee safe use.

Designed with interior and padded compartments for laptop and tablet, it also has a strap for trolley handle, a hidden "Smart Security" back pocket and a metal handle.

The battery is removable for security check.

Everything is included : customisation on the front plate, 10.000 mAh powerbank, 3-in-1 rPET cable with one-side customisation and non-woven pouch.

Option : Possibility to order this backpack without powerbank nor cable.
